# STADIUM CUP SERIES

Professional-style box soccer goals.  
Ideal for stadium fields.

- STANDARD
- PREMIER
- MOVABLE
- WHEELED

Back net-tensioning posts create the iconic box-style look seen all over the globe in professional leagues. The Stadium Cup Series offers a range of goals from permanent to mobile options.

## STADIUM CUP SERIES

### Standard Soccer Goal

Our standard in-ground box-style soccer goal features steel corners and lighter grade aluminum verticals and crossbar compared to our premier version of the Stadium Cup goal in order to keep costs down. Constructed to last and withstand years of top-quality game use. This semi-permanent goal is great for fields that do not need the goals to be moved. This Stadium Cup goal comes with two powder-coated net tension back posts to create a professional looking box-style shape. These specifications far exceed those of our competition and will provide years of use with little maintenance. Ideal for soccer stadiums where goal mobility is not needed. Meets FIFA, NCAA, and high school regulations.

- 4" Round Uprights and Crossbar
- Professional looking box-style goal
- Cable net attachment for easy and safe net removal
- White powder-coated finish for low maintenance and longer life
- 2 black powder-coated net-tensioning back posts
- Meets FIFA, NCAA, and NFHS standards
- Made in the U.S.A.

#### **Sizes Available:**

8' x 24'

#### **Included:**

- Pair of Stadium Cup goal frames
- 2 back posts per goal
- Cable net attachment system and clips
- Rope tensioners
- Sleeves for goals and back posts
- Stakes for nets
- Collars for height adjustment are provided to help with installation
- Two 3mm white 4.75" square mesh nets

*PRODUCT SKU: #ECONS80*

## STADIUM CUP SERIES

### Premier Soccer Goal

Our premier in-ground box-style soccer goal features steel corners and heavy grade aluminum verticals and crossbar built for strength and longer life of your goals. This semi-permanent goal is great for fields that do not need the goals to be moved. This Stadium Cup goal comes with two powder-coated net tension back posts to create a professional looking box-style shape. These specifications far exceed those of our competition and will provide years of use with little maintenance. Ideal for soccer stadiums where goal mobility is not needed. Meets FIFA, NCAA, and high school regulations.

- 4" Round Uprights and Crossbar
- Professional looking box-style goal
- Cable net attachment for easy and safe net removal
- White powder-coated finish for low maintenance and longer life
- 2 black powder-coated net-tensioning back posts
- Meets FIFA, NCAA, and NFHS standards
- Made in the U.S.A.

- Two 3mm white 4.75" square mesh nets

*PRODUCT SKU: S80*

## STADIUM CUP SERIES

### Movable Soccer Goal

This premier movable box-style soccer goal is a great solution for goals that only need to be moved occasionally. Suitable for grass or artificial turf fields, it features steel corners and heavy grade aluminum verticals, and a crossbar built for strength and extending the life of your goals. Our Stadium Cup goal can be easily moved with the aid of our caster dolly wheel kit and comes with three powder-coated net tensioning back posts to create that professional box-style shape. These specifications far exceed those of our competition and will provide years of use with little maintenance. Meets FIFA, NCAA, and high school regulations.

- 4" Round Uprights and Crossbar
- Professional looking box-style goal
- Cable net attachment for easy and safe net removal
- Movable, self-supporting, and counterbalanced
- White powder-coated finish on frame with black powder-coated groundbar for low maintenance and longer life
- 3 black powder-coated net-tensioning back posts
- Meets FIFA, NCAA, and NFHS standards
- Made in the U.S.A.

#### Sizes Available:

8' x 24'

#### Included:

- Pair of Stadium Cup goal frames
- 3 back posts per goal
- Cable net attachment system and clips
- Rope tensioners
- Duckbill anchors (Plastic inserts for duckbill anchors available for an extra cost)
- Two 3mm white 4.75" square mesh nets

## STADIUM CUP SERIES

### Wheeled Soccer Goal

This premier wheeled box-style soccer goal is a great solution for goals that need to be moved frequently. Perfect for shared football/soccer stadiums on both grass or artificial turf. Nine high-quality wheels built into the frame means just two people can easily move each goal with no lifting involved. Aluminum crossbar and steel posts and corners are built for strength and extending the life of your goals. Three built-in net-tensioning back posts create that professional box-style shape. Specifications far exceed those of our competition and will provide years of use with little maintenance. Meets FIFA, NCAA, and high school regulations.

- 4" Round Vertical Uprights and Crossbar
- Professional box-style goal
- Nine built-in wheels allow you to move goals safely and easily
- Cable net attachment for easy and safe net removal
- White powder-coated finish on frame with black powder-coated groundbar for low maintenance and longer life
- 3 black powder-coated net-tensioning back posts
- Meets FIFA, NCAA, and NFHS standards
- Made in the U.S.A.

#### Sizes Available:

8' x 24'

#### Included:

- Pair of Stadium Cup wheeled goal frames
- 3 back posts per goal
- Cable net attachment system and clips
- Rope tensioners
- Duckbill anchors (Plastic inserts for duckbill anchors available for an extra cost)
- Two 3mm white 4.75" square mesh nets

PRODUCT SKU: MS88WRD43P

# BACKYARD & TRAINING GOALS

### **Trainer Series Backyard Soccer Goal**

Our Trainer Series goal is sturdy enough to withstand backyard play but light enough to move around the yard. Constructed of sturdy 2" square aluminum with backstays and a back bar. This goal breaks down into 4 pieces for storage once the net is removed, (two side panels, one crossbar, and one back bar). Push-button assembly means assembling and disassembling the goal is easy. 2" mesh 3mm black net included.

*PRODUCT SKU: PSGE2AL*

### **Trainer Series Economy Soccer Goal**

Our Trainer Series soccer goals are an economical way to have full-size goals that are lightweight and mobile for training sessions. These all-aluminum goals are made from 2" square tubing and designed without backstays to reduce weight and materials. Push-button assembly and bungee ball net attachments make set-up quick and easy. A great utility goal for coaches and teams to have when budget and mobility are a priority. Includes 3mm twist nets.

*PRODUCT SKU: SGE2*

### **Striker Series Backyard Soccer Goal**

The Striker Series Backyard soccer goal is constructed using all-aluminum, lightweight, 3" round tubing. With measurements of just 6' x 4', it serves as the ideal small soccer goal, easily maneuverable in the backyard or practice field. The Striker Series showcases reinforced, high-strength, durable aluminum corner castings.

*PRODUCT SKU: #ECSG3RD46CBPC*

### **Bownet® Soccer Goal**

Take these portable Bownet soccer goals anywhere! With their convenient carry case, they easily fold up to fit in your car. Bownet's EAS™ technology (Energy Absorption System™) helps reduce stress and tension on the netting, extend the lifespan of the net, create a more balanced goal, and add flexibility and stability upon impact. Sets up in under two minutes without the use of tools, guide wires, or heavy steel crossbars reducing the risk of injury during game and practice.

*PRODUCT SKU: BOW*

### **Widemouth 9' x 2.5' Soccer Goal**

Our Widemouth soccer goal is low to the ground and wide, making it a great soccer goal for developing a players' finishing technique and accuracy. Great for training, small-sided games, or your backyard. Made of strong and durable 1 5/8" OD galvanized steel these goals are built to last years. Cable net attachment system makes removing nets safe and easy.

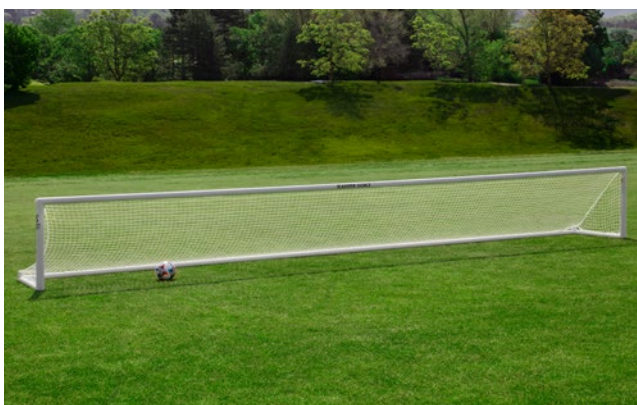

*PRODUCT SKU: WDM926*

### **Interactive Soccer Goal (Grass)**

Ideal portable soccer goal for backyard use, small-sided soccer tournaments, and practice sessions. Fits into a 4' x 10" backpack carrying case and weighs just 20 lb. Assembles in under 3 minutes. Strong and durable; weight tolerance tests at 530 lb.\* For use on grass and available in multiple colors.

*PRODUCT SKU: IA48*

### **Precision Soccer Goal**

This goal redefines accuracy, perfect for honing shooting skills and goalkeeper techniques. Standing at 24 feet wide and 3 feet high, it's tailored for finishing drills and ground saves. Crafted from durable 3-inch aluminum posts, it ensures lasting performance. Its unique design challenges players to aim for precision in the bottom corners, revolutionizing practice sessions.

*PRODUCT SKU: MSG-C-3RD-324-NB-PRECIZION*

### **Folding 4' x 2' Aluminum Soccer Goal**

Durable and strong, designed to last for years. Lightweight and easy to move. The 4' x 2' size is perfect for playing small-sided games or practicing shooting and passing. Need to store them away when not in use? They easily fold up for storage and transport. Hinged corners lock in place when the goal is in use. The heavy-duty net remains permanently attached to the goal for quick set-up. Available in multiple colors.

*PRODUCT SKU: ALUM42PC*

### **FAS Soccer Goal**

Strong, safe, durable soccer goals are available in a variety of sizes. Ideal for your backyard, small-sided games, youth soccer games, and five-a-side tournaments. A solid youth soccer goal built to withstand rugged play and abuse. Constructed of heavy-duty 2" OD steel tube. Move the Five-A-Side soccer goals easily with the aid of a #MW-2RD Wheel Kit.

*PRODUCT SKU: FAS*

### **Mini Keeper Goal**

Our 4' x 6' Mini Keeper goal is one of our best soccer goals for small-sided games or just shooting in the backyard. Durable and economical, this soccer goal is exceptionally strong because the entire goal is welded into one frame. Net removal and attachment are easy with our cable net attachment system. Made of 1" schedule 40 steel pipe (1 5/16" OD) and powder-coated in your choice of red or white. 1 3/4" mesh nets included.

*PRODUCT SKU: SS64LS175*

### **Budget Small-Sided Goal**

A great value for a small-sided soccer goal. This goal is built strong with economy in mind. No backstays and a galvanized finish keep the cost down while still retaining its strength using 1 5/8" galvanized steel construction. Sturdy enough to stay in place during gameplay, yet light enough to move. Two sizes available. Goals come with 1.75" mesh nets zip tie net attachments, and anchors.

*PRODUCT SKU: KGSTRD*

### **PowrNet Soccer Rebounder**

This durable, lightweight soccer rebounder is great for backyard shooting practice or training sessions. The taut net tension allows the ball to kickback for retrieval to keep the player engaged and spend more time practicing skills. Our 7' x 15' soccer rebounder sets up in minutes and fits in a 4' carry bag. Dual-sided allowing both sides to be used simultaneously, great for training two goalkeepers at the same time.

*PRODUCT SKU: GAPN715*

### **Heavy-Duty Backyard Soccer Rebounder**

Looking for a soccer rebounder that will hold up to heavy-duty use? Perfect for backyards or practice fields, this rebounder has great kickback for ball retrieval allowing more time for practicing those passing and shooting skills. The heavy-duty, self-supporting, steel frame is sleeve fitted together and can be moved around the yard or field to change location.

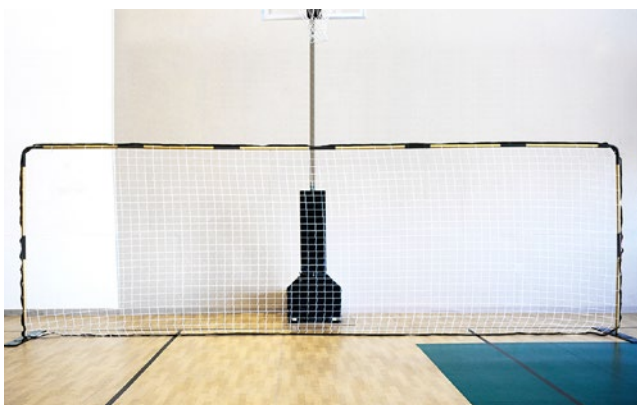

*PRODUCT SKU: SG2R*

### **FFIT™ Shooting Soccer Goal (Grass)**

This flat shooting soccer goal is engineered to transport in the trunk or back seat of your car. It combines the best physical & metallurgical properties of both aluminum and steel, including specific alloys, tolerances, and patented technology, making it one of the most durable, portable, and versatile flat training goals available. FFIT™ won't sag, won't bend, and will last! Breaks down into 4' sections.

*PRODUCT SKU: FFIT*

### **FFIT™ Turf & Indoor Shooting Soccer Goal**

The most durable, portable, and versatile flat soccer goal available for use on turf or indoor surfaces! FFIT™ combines the best physical & metallurgical properties of both aluminum and steel, including specific alloys, tolerances, and patented technology. FFIT won't sag, won't bend, and will last! Breaks down into 4' sections. Engineered to transport in the trunk or back seat of your car. Adapts to many size combinations (including soccer tennis, small goals & indoor use). Choose either standard indoor/turf bases or heavy duty indoor/turf bases. Bases will not fit in carrying bag and need to be carried separately.

*PRODUCT SKU: FFITINS*

### **Economy Flat Shooting Soccer Goal (Turf or Indoor)**

Budget-friendly flat-sided shooting soccer goal for use indoors or on artificial turf. Ideal for training sessions and camps. Can be used on both sides for dual goalkeeper training. A great way to get quick full-size goal training into a session without taking up much space when not in use. Crossbar DOES NOT break down into smaller pieces. Choose from two base types: Heavy-duty Indoor/Turf base – weighs 41 lb. each or Standard Indoor/Turf base – sandbags required, sandbags sold separately or use your own. Easy bungee net attachment system.

*PRODUCT SKU: EFSG2HDIN*

# **SOCCER NETS**

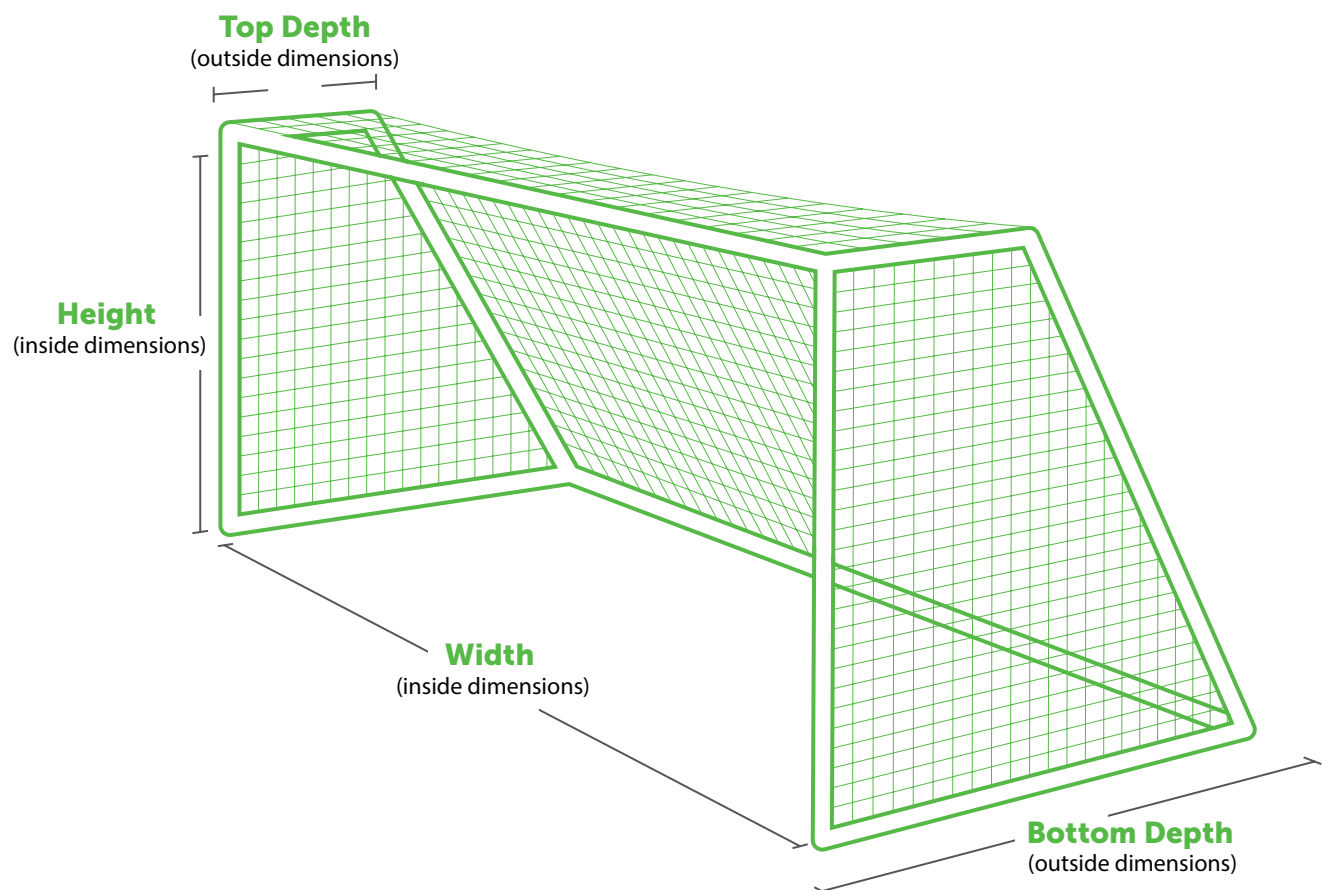

All of our goals come with nets included. However, if you're looking to purchase replacement nets or considering to upgrade with a style that delivers a premier looking goal, follow our guide to help inform you of the different choices and how to make sure you have the perfect fit.

#### KEEPER GOALS

## HOW TO MEASURE FOR NETS

To properly fit your soccer nets to your soccer goals you'll want to obtain the inside dimensions of the height and width of the goal and the outside dimensions of the top depth and bottom depth of the goal. (Note: Some goals have a 0" top depth.)

# CHOOSING THE RIGHT NET

Choosing the right type of soccer net for your situation, (climate, level of competition, amount of use, etc.), can help you make the best use of your equipment budget. Keeper Goals carries soccer nets for all situations including custom net requests. For any questions or to order nets just give us a call at [800.594.5126](tel:800.594.5126).

## MATERIAL

### HTPP (High Tenacity Polypropylene)

This type of material is used to produce items that require higher strength, such as safety nets or cargo nets. HTPP nets have a longer life when exposed to sun than PE or Nylon.

### PE(Polyethylene) Monofilament, (a thick and stiff yarn)

PE is normally made with a twisted-knot; or, for added strength, a braided knot. It is the most common type of soccer net made. Not all nets are made equally. Do not assume a 3mm-twist from one company has the same strength as a 3mm-twist as another.

### Nylon

The most common net produced in the United States. Nylon is available in a variety of sizes, thicknesses and styles. Because it is readily available, it is easy to use for a custom-made net.

## THICKNESS

### 3mm, 4mm, or 6mm

The thicker material, the stronger the net. The advantage of using thinner material is the overall weight of the net is much lighter. For fields where nets are taken down after each use, this may be a factor to consider.

## WEAVE

### Braided or Twisted

Braided weave nets are stronger than twisted. Keeper Goals recommends braided nets for almost every situation to increase the longevity of your net.

### Knotless or Knotted

Knotless nets are stronger than knotted. Keeper Goals recommends knotless nets for almost every situation to increase the longevity of your net.

### **2" Square Mesh**

*Material: HTPP*

*Thickness: 3mm*

*Color: White*

### **Checkered**

#### **Hexagon**

Material: HTPP

Thickness: 4mm

Color: Blue & Gold

#### **Hexagon**

Material: HTPP

Thickness: 3mm

Color: White

## **PATTERN SHAPE & SIZE**

### **Square Mesh**

Typically ranging in sizes from 2" to 4" squares. The smaller the size square, the stronger the net. Smaller mesh sizes provide more surface area for repeated hits and results in smaller gaps in the net when it does begin to fail, as opposed to larger square mesh that may eventually have tears that can have a ball pass through.

### **Hexagon Mesh**

Give your goals that professional-style look with hexagon patterned soccer nets. Offered in various materials and thicknesses to suit the durability that you're looking for.

## **COLOR**

We offer many color options on our nets. Call for more information to see what color options are available in the net you need.

### **Checkered**

A great way to brand your playing field by displaying your team or club's colors with 2-color checkered nets.

### **Vertical or Diagonal Stripes**

Another great way to brand your playing field by displaying your team or club's colors with 2-color striped nets offered in vertical or diagonal stripes.

### **Custom**

Brand your net with your team logo. Contact us for custom net options.

# FUTSAL GOALS

## Indoor or Outdoor, goals to stand the test of time.

We offer the the same great benefits of our full-size goal series in futsal sized versions. (6'7" x 9'10")

### ULTIMATE WHEELED SERIES FUTSAL GOAL

Part of our popular Ultimate Wheeled Series, this wheeled futsal goal comes built with five semi-pneumatic wheels built into the frame of each goal allowing the flexibility to adjust goal placement during training sessions with little effort. Ultimate Wheeled Soccer Goals are made with 4" round steel verticals and an aluminum crossbar. Durable, strong, and versatile make these goals ideal for indoor soccer or outdoor courts.

*PRODUCT SKU: M88WFUTSAL*

### MUNDIAL SERIES FUTSAL GOAL

A movable heavy-duty futsal goal with unsurpassed durability and longevity. Made with 4" x 2" steel uprights and crossbar, the Mundial Series soccer goals are an industry classic. Since 1983 these goals have been as durable and reliable as any on the market. Goals are designed for quick assembly, with just four pieces that are sleeve fitted, then bolted together. Great goals for indoor soccer or outside futsal courts. Powder-coated for low maintenance and weather protection.

*PRODUCT SKU: M8342FUTSAL*

### LIBERO SERIES FUTSAL GOAL

An aluminum goal with reinforced steel corners makes this lightweight, movable, and stronger than other aluminum goals out there. Built for everyday use on indoor soccer futsal courts and outdoor courts, this is a great mid-range goal for the price. Constructed with 4" round aluminum uprights and crossbar with steel corners and ground bar to counterbalance the goal.

*PRODUCT SKU: MALFUTSAL6710*

### **STRIKER SERIES FUTSAL GOAL**

3" round aluminum futsal goals made of lightweight tubing with built-in channel for easy net attachment. 1 3/8" round aluminum backstay tube. A finished bottom means you can use this futsal goal for indoor soccer surfaces and outdoors. Reinforced, high strength durable corners. Powder-coated. Includes 3mm net with channel net fasteners and ground anchors.

*PRODUCT SKU: MSGC3RDFUTSAL*

### **TRAINER SERIES FUTSAL GOAL**

The Trainer Series futsal goal is built of lightweight, 2" square aluminum tubing and designed to be used as an indoor soccer goal. This model is assembled using a push-button mechanism that makes it easy to take apart and very portable. Comes with a 3mm PE white net and bungee ball net attachments.

*PRODUCT SKU: SGEFUTSAL*

### **BOWNET FUTSAL GOAL**

At 2m x 3m, these portable nets are the official regulation size for both FIFA- and AMF-sanctioned games. Bownet futsal nets use EAST™ technology to absorb ball impact, reducing stress on the netting so they last longer. The composite BOW™ poles and telescoping steel frame are durable and stable while being light enough to move easily. It takes just two minutes for two people to assemble the net. A rolling storage bag is included for storage and transport.

*PRODUCT SKU: BOWFUTSAL*
